## Nagaland

A land engulfed in mystery, inhabited by vibrant people zealously guarding their culture – dancers, warriors, head-hunters; mountains, valleys, forests – all these forms the portrait of Nagaland the moment the word is uttered. But, from extreme mystery to hosting a globally famous cultural festival, Nagaland has come a long way over the years and etched a name for itself in the world's tourist destination map.

Nagaland came into being on 1<sup>st</sup> December, 1963 as the sixteenth state of the Indian Union with Kohima as her capital. With a geographical area of about 16,579 sq km, she shares her borders with Assam in the North and West, Myanmar and Arunachal Pradesh in the East and Manipur in the South. The topography of the state is nearly all hilly, the highest peak being Saramati (3841m) in the district of Kiphire. Many rivers cut through this mountainous terrain, like sharp swords slicing through rocks, the main ones being Dhansiri, Doyang, Dikhu, Milak, Tizu and Zungki.

The climate of Nagaland is nothing but perfect. With pleasant summers when temperatures do not average above 31° C and winters when they don't average below 4°C, the place is a 'perpetual holiday destination'.

23rd **Hornbill Festival 2022**

The best months to visit Nagaland are between October and May, when the landscape wears a green carpet and the flowers light up the skies with their bright hue. Rhododendrons and Orchids cover the landscape of Nagaland and one cannot miss them even as he is driving or trekking the challenging terrain. Traditionally the Naga people have been hardcore hunters, but awareness in conservation has resulted in common sighting of endangered birds and animals. The rare **Blyth's tragopan** (*Tragopan blythii*) is a resident of Nagaland and can be observed in plenty. In 2012, mass trapping and capture of migrating **Amur falcons** (*Falco amurensis*) was discovered in Nagaland and a successful campaign was initiated to prevent their killing. As part of this campaign, three birds were fitted with 5 gm satellite transmitters that allowed them to be tracked during their migration.

A 21<sup>st</sup> century creation of Nagaland is the **Hornbill festival**, an event which is now getting known globally. During Hornbill, which takes place from 1<sup>st</sup> December to 10<sup>th</sup> December, the entire Naga culture is showcased in full splendor in the Kisama village of Kohima district. The Government of Nagaland welcomes one and all to this mega event for a preview of what the state has to offer in terms of culture, traditions, tourism interest and industry.

### A dash of colour: people, life and culture

A population of only about 1.9 million, the numbers may sound meagre when compared with the vast population of the Indian peninsula; but these few people

are composed of 17 different major tribes, each representing a unique cultural system. With a population density of 120 persons per sq km, generally one major or minor tribe enjoys predominance across each of the 16 administrative districts.

Spirits, fertility, social bonding and purification are the key elements that form the essence of the Naga festivals – the custom that each tribe follows, translates into a festival. These traditional events, combined with life in the rural areas, are exceptionally engaging and distinctive. All of them are annual events with fixed dates; hence, before visiting Nagaland, the interested traveller can arrange his or her calendar accordingly. The first festival takes place in January and the last (or is it the last recorded?) in December – no matter what the season is, some festival is always round the corner.

In those days, whenever a person dies, the body was laid out on a

raised platform and lit a fire under the platform to smoke the body. When the body was properly smoked and dried, the village elders (males) dug a hole and the dead body was buried. About a week later, they removed the head from the body using

a sharp blade made out of bamboo and took the head to the aunts of the deceased for its cleaning. After it was cleaned, the men took the skull and carefully placed it inside the Lochüm. It is also learnt that the heads of the dead caused due to unnatural circumstances were not kept in Lochüm.

The Ahom king, Rura Raja made this cave when he fled from Godabani, the other Ahom King, known as Aubak Dung (*meaning Aubak Cave in Phom dialect*). The cave has four chambers. The king, Rura Raja along with his father, Singh Phoman and two soldiers, Hurman and Heingo took shelter in that cave. On hearing of his queen's ill health, the king returned to Shivasagar, Assam and could never return to his cave. It is said that during their stay, they discovered salt water (*Shemteinyaipa* in Phom dialect), lime stone (*Longthon Yak*), crude oil (*Phongshian*) and some precious stones (*Shengsheng Yak*). The remains of their stone gate (*Onglao Yong*), bed (*Jainyū Yong*), Chairs and Tables (*Yimbū Yong*) are found in Bhumnyū

village.

At present it instils awe and wonder on the onlookers on how this powerful and wise Ahom king came to such a remote forest and made this monumental cave along with the massive stone gate, bed, tables and chairs. It is really intriguing to know if all of their claims of discovery are true. Could this abandoned place have a treasure buried and hidden? The answer remains inscrutable, a fact enshrouded in mystery.

The cave is surrounded by virgin forest and one can enjoy listen to the enchanting melodies of birds, insects, animals and soft rustle of the wind beneath the cave. In the evening colony of bats fills their roosting chambers in the cave.

## Longwa

The 'trans-boundary village' of Longwa is an interesting sight to behold – it straddles the international boundary of India and Myanmar; one half of the house of the powerful Angh falls within India whereas the other half lies in Myanmar. ## Gifts of Gaia: orchids, rhododendrons, bamboo & exotic fruits

If William Wordsworth had the good fortune of visiting Nagaland, he would unquestionably have written a full collection of poems on the flowers that dance to the tune of spring here. Just as the people colour the terrain with their bright attire and vibrant dances, so does the sky adorn itself with the flowers of the **Orchids** and **Rhododendrons**. The varieties of the native flowering flora are countless in Nagaland. Be it a valley, a hill or a mountain top – in Nagaland, Orchids, Rhododendrons and the people, welcome you everywhere.

The traditional ceremonial attire of each tribe is in itself, an awe-inspiring sight to behold; the multicoloured spears and daos decorated with dyed goats' hair, the headgear made of finely woven bamboo interlaced with orchid stems, adorned with boar's teeth and hornbill's feathers, elephant tusk armlets. In days of yore every warrior had to earn each of these items through acts of valour, to wear them.

Nature could not have been kinder to Nagaland, sometimes referred to as the Switzerland of the East; the exquisitely picturesque landscapes, the vibrantly colourful sunrise and sunset, lush and verdant flora, this is a land that represents unimaginable beauty, moulded perfectly for a breath-taking experience.

Its people belong to the Indo-Mongoloid stock, whose ancestors lived off nature's abundant gifts, blessed with sturdy formidable dispositions. Above all, the people here are warmhearted and extremely hospitable.

Nagaland is blessed with salubrious climate throughout the year and one can visit it anytime. If one is looking for a quiet getaway, from the hustle and bustle of city life, it provides the right ambience; as life here is laidback and slow - providing a tension free life.

For the adventurous and the intrepid, Nagaland is an ideal place for trekking, rock climbing, jungle camping and offers limitless exploration possibilities in its lush and verdant sub-tropical rain forests which are also a treasure trove of a plethora of medicinal plants.

Nagaland Offroad is an initiative by the Government of Nagaland that aims to spread tourism in the state beyond conventional destinations like Dimapur and Kohima and capture its vibrant landscape and unique culture. With this, Nagaland is all set to become the perfect destination for travellers looking for adventure and the unadulterated truth of remote travel. Interested travellers have the facility to hire 4x4 self-drive vehicles

for the complete duration of their travel. It will be the experience of a lifetime for them since it will provide a unique window into the lifestyle of people across the state. This self curated expedition will give new opportunities for travellers to explore and experience the people

of Nagaland, its land, and its lifestyle. Offroading or Extreme Overlanding (XOL) are self-drive expeditions through remote lands that are inherently expeditionary in nature and pegged around self-reliance, adaptability, resilience and resolve. Historically, this domain evolved from the overland journeys from Europe to Asia and Africa, where intrepid adventurers travelled the globe on terrain they did not know, mingling with cultures they had no idea about, while taking uncertainty and ambiguity in their stride. Over time, the tribe has increased,

developing into a category in itself. These expeditions are different from mere road trips or overland drives on highways. They are offroad trips rooted in the unknown and involve terrain that is remote, extreme, bereft of creature comforts and luxury.

Given the sheer nature of such journeys, they are premised on the fact that vulnerability, being out of comfort, seeds the beginnings of self-growth wherein learning, unlearning and relearning is part of a never-ending loop that makes you not just a better driver but a more balanced individual.

**Bamboo** not only create an ambience of enchanting wilderness, it is also a product of great economic and cultural value. In Nagaland, bamboo provides the body and the soul for traditional architecture, crafts and tools, besides being the state's major commercial produce for paper and textile industries. The merits of this wonder grass can be seen in Asia's largest bamboo pavilion that the Govt. of Nagaland has built in Kisama (the site of the hornbill festival in Kohima district).

## Dream crafts: handicrafts, handlooms & fashion

Handicrafts come naturally to the Nagas – master craftsmen can create anything from a small paper knife to large and trendy pieces of furniture using cane and bamboo.

The Naga Heritage Complex is a permanent site built at Kisama – the purpose of this complex is to serve as a 'Window to Nagaland' (WTN), aiming at providing a preview of the entire state on a single platform. The WTN showcases the traditional houses or Morungs, representing the 17 recognised tribes of Nagaland. Each of these units display the unique offerings of each tribe in terms of crafts, cuisine, cultural activities etc. besides providing points of sale for the local products. An added attraction is the Flower Garden for the display, sale and exhibition of flowers, plants and fruits. The WTN also house the World War II Museum.

The colours of the Naga people have been showcased internationally through their handloom products. The red and black Naga shawls and throw-overs have become a familiar sight in many countries because of the master weavers and marketing efforts by government and private stakeholders.

The traditional art of handloom products has also made space for the modern 21<sup>st</sup> century fashion apparels and the two are now complementing each other perfectly through the fusion of traditional and modern designs; products created from this concept have caught the eye of the international fashion world. A number of young Naga designers have graduated from the best fashion schools in India and the west and they hold promises of carrying traditional Naga fashion across borders in a contemporary manner

## Muses & Athletes

Music, for the Nagas, is a necessity not just an amusement. Ancient Naga songs that formed the souls of the traditional festivals have been handed down across the generations. Indigenous musical instruments are bamboo mouth organs, cup violins, bamboo flutes, trumpets, cattle skin drums and log drums. The tribes have unique traditional instruments influenced by their customs and available materials. The young generation has also taken to gospel and modern western music very naturally and many of these performers have made an impact in the mainstream musical world through their talent.

Possessing tough and flexible bodies, the Nagas are 'Natural Born Warriors'. Across the centuries, they have perfected their traditional martial arts like Ki-Ti-Do.

## The Hornbill Festival

The Hornbill Festival, a yearly feature taking place on the first week of December is a modern-day cultural extravaganza of all Naga tribes. The Festival was conceptualized to showcase Naga culture, traditional and contemporary, in the spirit of unity in diversity. This Festival is held at the heritage village of Kisama, about 12 km from Kohima. The goal of creating this heritage village is the protection and preservation of the ethnic cultural heritage through a common management approach and comprehensive data base for the perpetuation of tourism promotion – since its inception in the year 2000, it has brought about radical changes in the tourism scenario of the state. A visitor gets the opportunity to catch a ring side view of all the Naga tribes, their culture and distinctiveness at one place. ## GETTING THERE

### ENTRY PERMITS

Foreign tourists can enter Nagaland freely (without any permits) – however, they need to register with the Foreigner's Registration Officer (FRO) of the district they visit or the nearest Police Station within 24 hours of their arrival.

Indian tourists can now obtain the Inner Line Permit (ILP) by logging in to [www.ilp.nagaland.gov.in](http://www.ilp.nagaland.gov.in) or visit any of the authorities mentioned below:

## HOW TO GO

### AIR

Dimapur is the only airport in Nagaland – direct flights connect this airport to Kolkata and connections can be made from all other airports in India including Delhi.

### RAIL

Dimapur has a railway station on the main line of the North East Frontier Railway. It is well connected to Guwahati which has direct train lines with most major Indian cities.

### ROAD

A number of taxis ply from Dimapur to Kohima. Night buses connect Dimapur and Kohima to Guwahati and Shillong (Meghalaya). A very convenient way for reaching Kohima is to take the train or flight to Dimapur and then a taxi to Kohima. The Dimapur taxi stand is adjacent to the Railway Station. Yellow Taxis can be hired with other passengers (shared taxis) or exclusively (full taxis) – a 'full taxi' can cost anything between ₹ 1500 - ₹ 2000 for a one-way trip to Kohima. Travellers can also opt to rent a car from Guwahati (through tour operators) and drive all the way to Kohima. This pleasant drive, lasting about 8-9 hours, takes the tourist past beautiful stretches of forests, greenery and hills – one should try to start and end the journey before nightfall.
